### Experience

#### RentSons / Lead Software Engineer

June 2020 - November 2020, Newport, RI

First technical hire at RentSons. Built out their internal infrastructure and scheduling tools.

#### GreenTiger / CTO & Co-Founder

August 2018 - June 2020, San Francisco, CA

GreenTiger was an application that allowed Indian citizens to invest in the U.S. stock market. Venture backed by top VCs, including: **Y Combinator, Khosla Ventures, 8VC, Section 32**, and others. **Wrote every line of code**, developed growth strategies, assisted in fundraising, and general business tasks. Grew the company to **\$15m in valuation**.

#### Microsoft / Software Engineering Intern \* 3

2016, 2017, 2018, Redmond, WA

SDE Intern in the Cloud & AI Group for 3 subsequent summers. Built features and integrations for Dynamics CRM that **all shipped into production**.

#### DALI Lab @ Dartmouth College / TA & Senior Engineer

September 2016 - June 2017, Hanover, NH

Held weekly **office hours**, conducted **code reviews** for various teams, **interviewed engineers**, and **held workshops** on various programming topics.

#### U.S. Army / Automated Logistics Specialist

October 2012 - April 2016, Ft. Hood, TX

### Education

#### Dartmouth College / Computer Science (Incomplete)

2016-2019, Hanover, NH

Dropped out my senior year to pursue my startup

### Awards
